

# THE NEXT GENERATION OF NASAL CANNULAS

## What Can the Smart Nasal Cannula™ with Oxyview® Do for You and Your Patients?

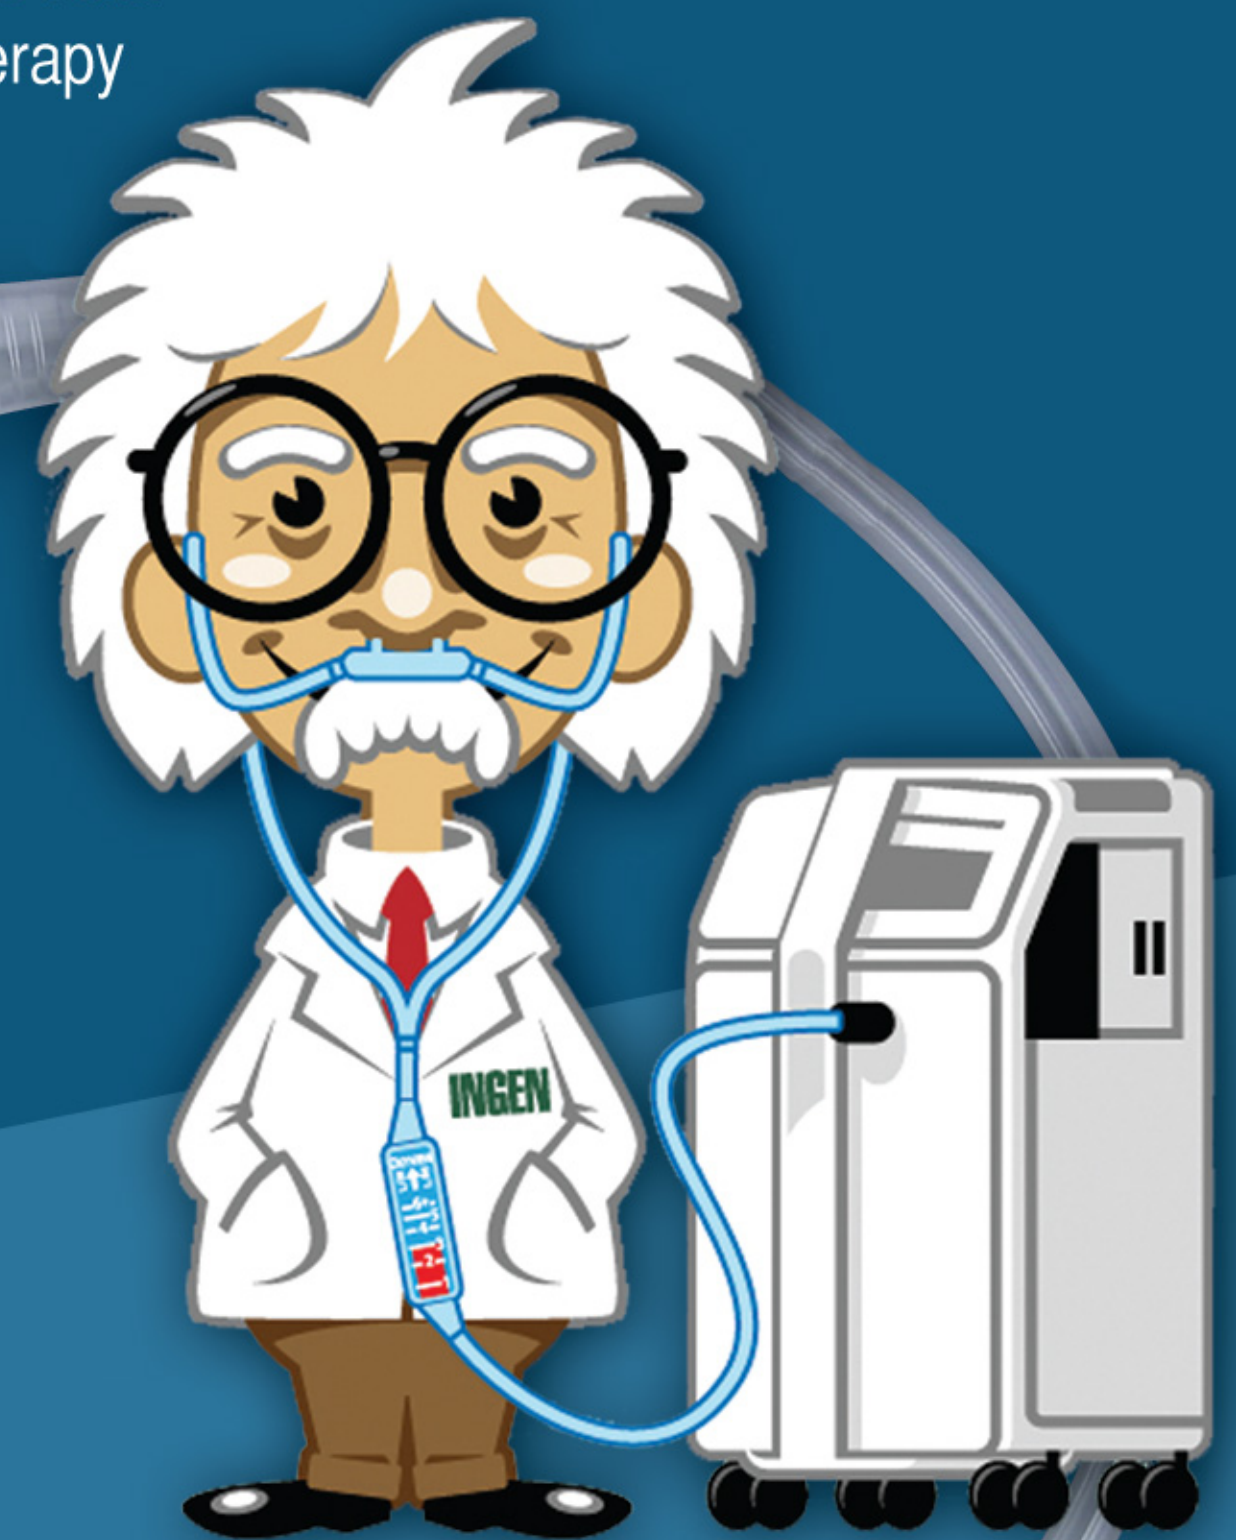

### The Smart Nasal Cannula™ with Oxyview®

- In-Line Pneumatic Oxygen Flow Meter
- Saves Staff Time to Monitor Oxygen
- Durable Medical Grade Polycarbonate
- Improves Safety and Accuracy
- High Quality, Curved Soft-Tip, Latex Free
- Assurance to Patient for added Confidence
- Advanced Technology works in any position (not gravity dependent)
- Use in Hospitals, Home Health Care, Long Term Care and Hospice
- Comes in sizes for Adults, Children and Infants: 0-6 l/m and 0-3 l/m

### Benefits:

- Allows clinician to see oxygen flow during rehab and at home when a patient requires extenders to be attached to their nasal cannula for mobility.
- Patients using a low flow of oxygen can quickly verify oxygen flow even though they do not always feel the gas flow. The Smart Nasal Cannula confirms prescribed oxygen flow rate.
- Improves Oxygen Therapy

Manufactured By:

**INGEN**  
TECHNOLOGIES, INC.
