INGEN TECHNOLOGIES AND INTERACOUSTICS TO GROW AND STRENGTHEN MARKET SHARE

For Release: August 11, 2004

Calimesa, CA – August 11, 2004 - Ingen Technologies, Inc. (OTC: CRTZ) announced today that Interacoustics A/S will provide the Company a private label of their VNG (video nystagmography diagnostic) product to strengthen market share for the Secure Balance™ program.

Ingen Technologies and new marketing partner Preferred Provider Network will provide balance and fall prevention services and products to physicians for patients under the private label “Secure Balance™”. In conjunction, Interacoustics will provide an exclusive domestic private label of the Company’s video nystagmography diagnostic system or “VNG”.

“This consortium of brand name companies will provide the most advanced and cost effective Secure Balance™ Program for physicians and patients nationwide. Interacoustics has achieved a professional reputation in this industry, and its corresponding brand awareness should translate to significant growth in sales for Ingen,” said Scott Sand, CEO & Chairman.

About Interacoustics A/S

Interacoustics A/S is a Denmark Corporation and has 35 years experience in the field of audiologic and advanced audiometric instruments. Interacoustics was the first company in its industry to obtain the Medical CE Mark which assures the highest level of documented medical safety. For more information, visit: www.interacoustics.com .

About Ingen Technologies

Ingen Technologies is a growth-oriented technology company that offers a diverse and progressive service and product line. The Company’s flagship product is its BAFI™ product, the world’s first, wireless digital low gas warning system for pressurized gas cylinders. BAFI, now in its second generation, is an accurate and cost-effective, real-time pressurized gas warning system that will alert users when gas levels are approaching empty.

The BAFI line has multiple applications in the medical sector, safety and protection (fire and police), aircraft, recreation vehicle and outdoor uses, as well as home and residential, construction and military. BAFI is a patented product that meets or exceeds regulatory compliance of this time of product and is completed and in production.
