

## **INGEN TECHNOLOGIES ANNOUNCES SYMBOL CHANGE**

### **For Release:**

Calimesa, CA – November 2, 2004 9:15AM EST - Ingen Technologies, Inc. (OTC: CRTZ) announced today that it has received confirmation from the NASD that its trading symbol will change to OTC: IGTN, effective November 2, 2004.

President Scott Sand said, "This new trading symbol is more representative of our corporate focus and comes on the heels of a number of new marketing initiatives that we are implementing. In conjunction with the sales and marketing roll-out, we are evaluating a number of financing options that best implement the balance of our business plan."

### **About Ingen Technologies**

Ingen Technologies is a growth-oriented technology company that offers a diverse and progressive service and product line. The Company's flagship product is its BAFI™, the world's first patented wireless digital low gas warning system for pressurized gas cylinders. BAFI™, now in its second generation, is an accurate and cost-effective, real-time pressurized gas warning system that will alert users when gas levels are approaching empty.

The gas alarm product line has multiple applications in the medical sector, safety and protection (fire and police), aircraft, recreation vehicle and outdoor uses, as well as home and residential, construction and military. BAFI™ is a patented product that meets or exceeds regulatory compliance of this type of product and is completed and in production.

Ingen Technologies' Secure Balance™ program offers the most sophisticated clinical products for vestibular function testing and balance therapy compared to any of their competitors. "We offer the most medically accepted, comprehensive product line for vestibular function testing at prices lower, than our competitors," said Scott Sand, CEO of Ingen Technologies.

More than two million people visit their doctor each year complaining of dizziness or vertigo and the Secure Balance™ program can substantially help patients and
